All town buildings are closed to the public; although we are “open” for business. Parks, Playgrounds and Playing Fields are closed.

Hopkinton has created a new Covid-19 Community Impact Dashboard to illustrate closings and general tracking numbers which include the ability to see trendlines over time. Link to dashboard: https://arcg.is/PyP0S

Following Governor Baker’s previous emergency order from March 23, ONLY designated businesses and organizations providing “COVID-19 Essential Services,” such as grocery stores, pharmacies, and restaurants offering take-out or pick up only remain open. All non-essential businesses, retailers, and organizations are closed to workers, customers and the public until Noon on Tuesday, April 7, 2020. See the COVID-19 Essential Business FAQs from the State.

Non-essential businesses are encouraged to continue operations remotely. To that end, essential services provided by the Hopkinton Department of Public Works, Facilities, Health Services, Youth and Family Services, Hopkinton Police Department and Hopkinton Fire Department will continue. The rest of the Town Departments will continue to provide services as in prior weeks, albeit employees will be working remotely.

Community spread is now occurring throughout Hopkinton, and we will likely see more reported cases in the coming days. PLEASE! Remain home; adhere to the community restrictions in place, especially when outside – do not gather in parks, playground areas, and playing fields as these are CLOSED; and take appropriate social distancing measures when visiting grocery stores, pharmacies and other essential businesses.

As of 11:00 a.m. on 3/30/20, Hopkinton’s Health Department has 9 total confirmed COVID-19 cases; 5 of those cases are active, with 4 recoveries and zero deaths. Our most recent cases
fall within the 20-29 age range. However, as testing increases, more cases may be identified in
our Town.

**Blood Drive - NEW UPDATE**
Governor Baker and First Lady Lauren Baker visited the American Red Cross of Massachusetts
headquarters in Dedham to urge residents to donate blood. The Red Cross is facing a critical
shortage of blood products due to cancellations of blood drives across the Commonwealth
because of implementation of necessary prevention and mitigation actions during COVID-19
outbreak. The Governor has deemed “Blood and plasma donors and the employees of the
organizations that operate and manage related activities” as an essential service. There are
upcoming blood drives in Milford and Framingham. More info here:
